Junction Solutions Achieves AMR Research Industry Partner Certifications for Retail and Process Manufacturing

Junction Solutions is the first to Receive Both Retail and Process Manufacturing Certification on Microsoft Dynamics AX

LINCOLNSHIRE, IL — Chicago-based Junction Solutions (www.junctionsolutions.com), a provider of vertical market-specific software applications and services for the Food and Beverage and Multi-Channel Retail industries, has achieved AMR Research Partner Industry Certification for Microsoft Dynamics® AX in both the Retail and Process Manufacturing sectors. The company was the first to receive the certification for the Retail industry and the first to receive certification in both Retail and Process Manufacturing among all partners worldwide. This program is a new and innovative way for Microsoft Dynamics ISV Partners to demonstrate their industry-specific expertise in extending the core functionality of Dynamics AX. The AMR Research program is based on objective, research-based findings, and enables the marketplace to easily identify Microsoft ISV Partners that are proficient in targeted, vertical arenas.

“We believe the certification program allows Junction Solutions to further demonstrate our deep level of commitment to our vertical markets and to Microsoft Dynamics AX,” said Jeff Grell, president and CEO of Junction Solutions. “As a Microsoft 2010 Retail Partner of the Year, we felt it was important to lead the certification effort for this new program. Plus, we feel the certification clearly demonstrates our understanding of the technology needs of our customers and our proven track record in extending the value of the Microsoft Dynamics platform across all division of our clients’ organizations,” he said.

About Junction Solutions

With offices throughout the U.S. and U.K., Junction Solutions provides vertical-specific software applications and services that help organizations enhance operational performance, reduce costs, expand delivery channels and strengthen relationships. Built on Microsoft Dynamics® AX and designed specifically for Food & Beverage and Multi-Channel Retail companies, Junction Solutions’ innovative offerings focus on enterprise resource planning, (ERP), supply chain management (SCM – demand, order, warehouse, yard and distribution management), human capital management, merchandising, order entry management, call-center management, eCommerce engagement and fulfillment. The

company recently was named 2010 Microsoft Dynamics® Retail Partner of the Year. For more information, please visit www.junctionsolutions.com.
