

Junction Solutions
Where Platform Meets Inspiration

Microsoft Dynamics Financial Implementation Consultants

Location: United Kingdom

Junction Solutions continues to experience strong growth and is currently hiring Financial Implementation Consultants.

Junction Solutions, a Microsoft Gold Certified Partner, is the premier provider of vertical industry based enterprise software and services based on Microsoft Dynamics AX (Axapta). Focused on providing innovative solutions for food and beverage, multi-channel retail, and wholesale distribution, Junction Solutions combines deep industry expertise with Microsoft Dynamics AX, the most technically advanced ERP platform in the industry. Through deep industry skills and technology alliances, Junction Solutions delivers innovations that help clients transform their business operations and better connect with their customers, business partners, and employees. We are a growing and dynamic business and technology consulting firm that works with mid-market and divisions of the Fortune 1000 firms.

Financial Implementation Consultants are responsible for working on our client implementations. This role may begin or evolve into a position with extensive travel to client sites. You will be responsible for all phases of the project lifecycle including: planning, installation, implementation, deployment and support. Duties will include:

- Requirements definition
- Setup and configuration of the Microsoft Dynamics Financials and related modules.
- Participating with other implementation team members to ensure the overall accuracy and consistency of accounting transactions throughout the system
- Definition and documentation of new processes
- Testing, debugging, updating and maintenance activities
- Training of clients on new processes and Microsoft Dynamics Financials
- Converting data and financial transactions from legacy systems to Dynamics
- Assisting clients with initial financial period closing processes, reporting and analysis
- Financial statement preparation

Financial Implementation Consultants should have a degree in Accounting or Finance and experience or knowledge in Information Systems and/or ERP software. CPA, CMA, or significant progress towards the attainment of either certification, is a strong plus.

All candidates must be client-focused, team-oriented and have superior communication skills.

At Junction Solutions our product is our people. You'll be part of a team of smart, engaging, client-centric professionals who understand that our success depends on the measurable success of those we serve. You'll find an opportunity to balance personal life with professional growth in an environment that rewards creative problem solving. We believe that great people, all focused on a shared and powerful vision, can achieve tremendous results. There's a real sense of empowerment when you know your contribution really matters.

These are full time salaried positions with full company benefits including private medical and pension.
