

Junction Solutions

Where Platform Meets Inspiration

Junction Solutions continues to experience strong growth and is currently hiring an **E-Commerce Web Developer**. This is a fulltime position in our **Newport Beach, CA** or **Englewood, CO** office. Contractors and consulting firms will not be considered.

Junction Solutions, a Microsoft Gold Certified Partner, is the premier provider of vertical industry focused enterprise software and services based on Microsoft Dynamics AX (Axapta). Focused on providing innovative solutions for food and beverage, multi-channel retail, and wholesale distribution, Junction Solutions combines deep industry expertise with Microsoft Dynamics AX (Axapta), the most technically advanced ERP platform in the industry. Through deep industry skills and technology alliances, Junction Solutions delivers innovations that help clients transform their business operations and better connect with their customers, business partners, and employees. We are a growing and dynamic business and technology consulting firm that works with mid-market and divisions of Fortune 1000 firms.

We seek an experienced **E-Commerce Web Developer** who is highly proficient in website development using the above-mentioned technologies. This person must have the ability and enthusiasm to learn how to program in a sophisticated object-oriented environment.

Required Qualifications:

- Expert proficiency with the construction of XHTML standard compliant websites using HTML, CSS, and Javascript.
- Strong proficiency in converting PhotoShop mockups into fully functional websites with pixel perfect accuracy, including table-free CSS layouts.
- Strong proficiency with website editing applications such as Dreamweaver, VS.NET or the new MS Expressions.
- An eye for good design and a strong grasp of visual aesthetics, site usability, and browser compatibility.
- Working knowledge of C#, ASP.NET, MS SQL.
- Working knowledge of project documentation, document management, and change management.
- Capable of processing multiple projects simultaneously and rapidly.

Preferred Qualifications:

- Flash MX/ActionScripting experience a plus.
- QA and/or Unit Testing experience
- Subversion or other code control environments
- E-commerce experience

All candidates must be client focused, team orientated, and have superior communication skills.

At Junction Solutions our product is our people. You are part of a team of smart, engaging, client-centric professionals who understand that our success depends on the measurable success of those we serve. You find an opportunity to balance personal life with professional growth in an environment that rewards creative problem solving. We believe that great people, all focused on a shared and powerful vision, can achieve tremendous results. There is a real sense of empowerment when you know your contribution really matters.

This is a full time salaried position with full company benefits. Junction Solutions offers a comprehensive benefits package including, health, dental, vision care, life insurance, short-tem disability, long-term disability, pre-tax flexible spending accounts, and 401K plan.

Please submit your resume to careers4u@junctionsolutions.com and reference **E-Commerce Web Developer** in the subject line. For more information, visit our web site at <http://www.junctionsolutions.com> and select the [About](#) link.
